DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-2 & 6-7, drawn to a semiconductor device, classified in class 257, subclass 388.

II. Claims 3-5 & 8-10, drawn to a method of making a semiconductor device, classified in class 438, subclass 299.

2. The inventions are distinct, each from the other because of the following reasons: Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the resultant material as claimed can be made by reverse process, such as depositing a nitride layer on a temporary substrate, depositing a tungsten layer on the nitride layer, depositing a tungsten nitride layer on the tungsten layer, depositing a polysilicon layer on the tungsten nitride layer, depositing a gate oxide layer on the polysilicon layer, depositing a semiconductor substrate and then removing the temporary substrate.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, the

search required for Group I is not required for Group II, and separated examination would be required, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
